

## 2.2. 1996 - from 0.00 till 3.00.

In the spring of 1996 have delivered overlapping plates. In the summer for manufacture of a laying of basement columns and partitions the first group of Ukrainians has been invited. They had our brothers as helpers. Then Ukrainians have left. After them there has arrived the second group of Americans (for 10 days). With their help the part of plates of overlapping has been established, the lateral ladder is executed.

After end of agricultural works again there has arrived group of Ukrainians. They have finished installation of plates of overlapping and have begun a laying a red brick. A red brick to unload and shift again amicably all church came. These two years (1995 and 1996) were years of the maximum activity of church, in particular youth, in church building.

Brothers from Ukraine always showed for us an example of fruitful, fast Christian work. During this arrival Ukrainians have deduced walls on a mark of 3,00 m.
