

On June, 12th there was a women conference in church.

Women of middle age, girls-teenagers, and elderly sisters took part in this conference. Themes "Loneliness" and «Friendly women» left nobody indifferent; and dialogue in small groups, tea drinking, an exchange of the gifts made by hands, the singing pull together people.

Here are opinions of sisters on conference:

- I would like that all women can hear things about loneliness and friendship. I became stronger spiritually, understood that the Lord doesn't want we were alone. (Irina Krupeeva).

- I understood that it is necessary to search for friends, to show the initiative in it. It was pleasant to do a hand-made article, to pray for the friend, to communicate in small group. (Galina Richter).

- A theme is actual both for youth, and for adults. I learned how to struggle with loneliness. Such actions, certainly, unite us. And tea drinking helped to talk heart-to-heart, we continued to discuss a theme, shared thoughts. (Polina Lyamina).
