

The administration of Ryad village has asked to sing our church chorus.

The Ryad village is in 7 miles from our city. 616 persons live there. The head of administration Natalia Smirnova has asked our church chorus to act with a concert in the election day in the State Duma on December, 4th. We with pleasure have responded to the given offer.

The concert theme was "Russia-mother-fatherland". It has taken place in Recreation center. At a hall there were nearby 30 persons. There were people of different age - both elderly, and children. Audiences were pleasant spiritual church chanting. The head of administration has told: "when I hear these songs, my soul departs to Heavens". The word of God touched hearts of people. Solo singing, poems sounded also. The concert was hardly more than two hours, but spectators asked to sing still.

Upon termination of a concert people have prepared food for us. We drank tea, communicated. People asked questions on spiritual themes. They invited us again to arrive with a similar concert. Glory to the Lord for this possibility to glorify Him. Let seeds in the hearts of people will grow and will bring a kind fruit for our Lord!
