

On January, 28th there was a musical performance in the Center of the Public Information.

It was prepared by brothers and the sisters participating in service of Christian camps from a society of the help to children "Harbour". Already at an input in auditorium there was "an armed" protection of the king.

Policemen affably smiled, therefore nobody was afraid of them, and the hall was quickly filled with spectators - adults and, of course, children.

We have met the king and its disobedient daughter - the princess. The Bremen musicians helped her to find a way to Jesus Christ to Whom she prayed in a repentance prayer, having found peace and rest in the heart. On road to Jesus there were robbers who repented subsequently in the sins too and began a new life.

In the conclusion of performance all heroes including spectators, have appeared on a wonderful holiday - Christmas of our Lord Jesus Christ. Spectators were grateful to organizers of

performance. The special gratitude has been expressed to Raisa Sajgina who has rendered the big help in preparation of the scenario of performance.

It is very pleasant that spectators through this performance could hear once again about great God's Love and see, how Jesus Christ has changed hearts of all heroes.
